

INTERNAL QUALITY ASSURANCE CELL (IQAC)

Institutional Distinctiveness

The College as a Higher Education Institution is committed in imparting Quality Education to empower the students belonging to economic and rural background of Karaikal region of Puducherry Union Territory. The College plays a vital role in education and social development, especially for women in the locality. Due to the scarcity of higher education institutions in the nearby area, the families in the area got a golden opportunity to educate their children's due to the presence of this College. Many of them had overcome their limitation and served society successfully.

Our College arranges various programmes to create awareness related to Anti-tobacco, Anti-Malaria, AIDS, water conservation, beach cleaning, gender sensitivity issues, women empowerment etc. For empowering the youths in the locality, the physical education department of this College provides free coaching for sport games. The college playground is also given to the public for the different sports events organised by the local bodies, nearby institutions, Government organizations etc. The locality people also use it for fitness trials for various competitive examinations. The College offers different endowments for academically bright but financially backward students. The Institution is also helping the community with various services like Blood donation camp, cleaning programmes, tree plantation etc.

The College has highly qualified faculty members recruited through UPSC, New Delhi out of them most of the faculty members have Doctorate Degree. The Institution is having an ambient atmosphere of high Academic environment the Faculty are highly motivated and dedicated and works hard in using Innovative Methodologies in teaching and disseminating the information for the upliftment of the students of this region with rural background. The Institution is having the necessary ICT facilities like LCD projectors, smart boards and sufficient number of computers in each Department, Laptops. In future, our plan is to upgrade all the Departments and laboratories with modern technologies and tools to enhance the teaching – learning processes.

INTERNAL QUALITY ASSURANCE CELL (IQAC)

Institution has Central Library with good collection of books and departmental libraries with sufficient number of reference books for the staff and students. Government is encouraging the students belonging to economically weak community by providing scholarships to pursue their education. In addition to the academics, students also participate in Co – Curricular Activities, Extra Curricular Activities which helps them to enhance all rounded personality. The academically poor students have been taken- care by the Mentors and remedial classes are organized for them. The students also participate in Sports and cultural activities at the university and national levels to nurture their talents. The students of this institution are well trained in NSS and NCC activities to inculcate the social responsibility discipline in the students.

The institute demonstrates strong distinctiveness through its commitment to social responsibility and active community engagement. It consistently integrates social values into academic practices by encouraging students and faculty to participate in outreach programs, awareness drives, and service-learning initiatives. The institute collaborates with local communities, schools, and organizations to address social, environmental, and economic challenges. Activities such as health camps, environmental conservation programs, skill development workshops, and support for underprivileged groups foster a sense of empathy and civic duty among students. Through these sustained efforts, the institute contributes meaningfully to societal development while shaping socially responsible and ethical graduates.
