

INTERNAL QUALITY ASSURANCE CELL
ARIGNAR ANNA GOVERNMENT ARTS AND SCIENCE COLLEGE
KARAIKAL, 609605.

Quality assurance is a by-product of ongoing efforts to define the objectives of an institution, to have a work plan to achieve them and to specify the checks and balances to evaluate the degree to which each of the tasks is fulfilled. Hence devotion and commitment to improvement rather than mere institutional control is the basis for devising procedures and instruments for assuring quality. The right balance between the health and growth of an institution needs to be struck. The IQAC has to ensure that whatever is done in the institution for "education" is done efficiently and effectively with high standards. In order to do this, the IQAC will have to first establish procedures and modalities to collect data and information on various aspects of institutional functioning.

The following staff members will form the IQAC of this college to fulfill the sustainable quality assurance steps as mentioned above.
